Street Commissioner Barrows is
putting a top dressing of new earth
upon Portland street, which, when
well packed down, will undoubtedly
lessen the flour-like dust of the street.

ing about that street in particular it

C. F. Smith was general train-man
on the recent trip to Newport, taking
hold with a lively interest and ped-
dling several bushels of peanuts,

ing there but about ten minutes be-
fore the boat left.

ten, the day before. Mr. O'Hare was
fined an amount provided by law,
which, with costs, amounted to a lit-
tle under \$10.

The excursion trip to Newport and
the lake last Wednesday was in every
way a most decided success, and an
enjoyable occasion. When the excu-
sionists were all aboard it took 12
cars and two engines to do the busi-
ness, and some over 650 people par-
ticipated. No accident or any un-
pleasant thing occurred to mar the
pleasure of the trip.

stopping in town the past few weeks,

is well equipped for the position to
which he will go, and his many
friends here will wish him abundant
success.

The building on Portland street
formerly owned by Mr. Rich, recently
purchased by Churchill & Churchill
and occupied by that firm's large
hardware business, is undergoing sev-
eral changes. The unsightly tilting
veranda and steps in front have been
removed, and the building is being
dropped to the sidewalk to better ac-
commodate the public. Other im-
provements will follow.

The vacant space between the con-
crete and building in front of the
Stone building on Portland street
and the Wilson building at the depot
corner has been filled in with cement.

business from Mr. Tift's to his own
building as soon as it is vacated by
the stone cutting firm now occupying

preached the morning sermon, the
pastor, Rev. Mr. Kellogg, speaking
in the evening. At the Methodist
church Rev. L. O. Sherburne, Presid-
ing Elder of the St. Albans district,
presented an interesting sermon and
administered the sacrament. Rev.
Dr. Booth preached in the Universal-
ist church as usual.

THE SPECIAL CORPORATION MEETING.
In addition to the expected action
upon the electric light question, the
special corporation meeting to be
held on Tuesday evening of next week
will also express a wish concerning
the incorporation of the village school
district by the next general Assembly
of the State. If the present school
law is to remain as it is, as it very
likely will with a few modifications
and improvements, it will probably
be the desire of the inhabitants of the
village district that it should be in-
corporated, and the town at large
will very likely be as ready to have it.
The question of water supply will
also be brought up. There can be no
question whatever about the quality
of the water now used by so large a
per cent. of our residents; it is equal-
led by few and excelled by no town in
the State of Vermont. The only
trouble is the quantity, which at
times is inadequate, and causes the
question to arise: Is the contract
made with the Aqueduct Company by
the corporation for water for fire
purposes being fulfilled? If the com-
pany would build the much larger
storage reservoir on higher ground
that they have been promising for
some time, the difficulty would be at
an end. It is expected that the com-
pany will present a proposition for
the sale of the system, as it now is,
at this meeting, but it is rather
doubtful if the corporation will think
it wise to purchase, with the neces-
sity of so much of a change to be
met at once, unless the price shall be
very favorable. The springs bought
by the corporation are panning out
well and will "keep." Let the Aqueduct
company give us now what we
have reason to expect, and then the
corporation tackle the electric light
question first, before it is everlasting-
ly too late.

George has many friends here who
wish him success.

lowing simple remedy for keeping

his cow, all because of this simple
remedy. Try it.

The check list of the voters of this
town to be used at the September
election is completed and posted as
the law directs. Selectman Davis,
who has had the whole matter in
charge, has taken considerable pains
to get the list as near correct as
possible. It is the duty of every
voter to see that his name is on the
list. The board of civil authority
will meet at the Town Clerk's office

on Saturday, August 18, at one
o'clock P. M., to revise said list.

Two or three lists from other
parts of the town came here last
Tuesday to attend a meeting of the
county equalization board. That
board having been abolished by the
Legislature of 1882, they found their
trip of no special benefit except, per-
haps, to their health.

Last Friday afternoon while chop-
ping with his father Johnny Sands
made a misstroke with his axe and
smashed the second finger of his
father's right hand so badly that
amputation of that member was
necessary. Dr. Genge did the act,
taking the finger off between the first
and second joints.

A very interesting service, conduct-
ed by Miss Adah Barber, was held at
the vestry last Sunday evening. The
subject was "Gardens," and with the
use of the blackboard the leader show-
ed how easily the weeds creep into
one's garden and pointed out the ne-
cessity of constant work therein. She
also showed how little was done for
the advancement of God's work and
by figures and statistics showed that
if the one-tenth idea was adhered
to, astonishingly large sums could
be raised among the Christian peo-
ple alone in this county. She very
forcibly touched upon the fact that
while many were ready to give
money, but few were willing to do
what is most important of all—put
in time and work. There was a large
attendance and the exercise was given
close attention throughout.

An exceedingly painful and serious
accident was that which befell Chas.
Merrill last Saturday morning. He
was working on C. A. Knight's new
house, and in company with another
carpenter was on a staging close up
under the gable, some 35 feet from
the ground. He stepped too far out
on the end of the boards and they
tipped down so suddenly that a fall
was inevitable, so he jumped, hoping
to save himself. His right ankle was
badly broken and smashed up, his
whole weight apparently striking on
that foot. He was carried quickly
home and Dr. Genge summoned. The
doctor attended to the immediate
dressing of the injured member and
then called a consultation to de-
termine whether or not to amputate
the foot. Drs. Hall, Johnson, Kinsley
and Dr. Vaughan of Chicago being
present. Their decision was to let
it rest for a few days and save the
foot if possible. Some years ago he
fell from a staging in Craftsbury and
injured the same foot and it has been
weak ever since. His left limb was
also considerably bruised. Mr. Mer-
rill is doing as well as could be ex-
pected at present and we hope he will
come out on top in the end. A paper
soliciting aid in his behalf is receiving
numerous signatures.
